

# Timbercraft Homes

4095 SUNSET RIDGE RD. S, SALEM

\$1.4 MILLION • 4,803 SQUARE FEET • 4 BEDROOMS • 3½ BATHROOMS

I'm a lucky man: Us kids in '78 gathering treasures and memories at Dad's jobsite in the crisp fall air of Alaska. Jack Frost under our Keds, the smell of fresh lumber and Birch leaves covering the plentiful gravel. Termination Dust appeared on peaks above, quickly moving down to topped-out Fireweed below. Our treasures were discarded—silver metal knockouts, copper pipe fittings and bent nails. We made forts from falloff scrap. I went home to draw my own masterpieces on 1/4" white graph paper. Please see my team's accomplishment this year. Thank you to my friends, family, M&M, craftsmen and suppliers, whose hands created with me. In a changing and complicated industry, I am very fortunate this year. I no longer need graph paper but during concept CAD makes all that inspires me come alive. This home may be our best so far. I'm a lucky man. My boys now do the same thing us kids did then. The best part: watching them dreaming and creating their lives they'll live someday.
